New Kid In

We have some great projects for you in this issue! I love the fibers of summer – cottan, linen, silk, corn, bamboa, or blends of these-the motivative store year being called in the industry. We have quite a tew projects that can be worn alone this season or under a jocket when the weather start is turn a fittle cooler. Make sure you take a look of our accessories section too – especially the award-winning design by 10-yea-old Kate L'Esperance!

Shartly, after I arrived as the new editor of Knit 'n Style in lote spring last year, a large package arrived an my desk that have not a garment for the upcoming issue. I discovered on inchinkic bundle of oversized pages, clamped taggether with a longe binder elip. These are colled "galley proofs" and were from a book publisher, showcasing a work to be released same six months later. As I had bunch that day, I paged through this stock, hoping I dain't get the pages out of order. Knitting With Balls is written by Michael del Vecchio as a guide for men who knit are would like to stort. I was impressed with Michael's philosophy, his presentation of the material and, a contacted him immediately through www.menknit.net and we have collaborated an three of his designs to date in Knit 'n Style. Michael del Vecchio is the new kid on the block and our Designer in the Sobilitah't his month.

Since we all have different body shapes, how can one pottern really work for everyone? Learn to customize your gorment highly at all fille shaping. Morgaret Radciffle, our how-to divo, shows us easy ways to get your work to have a loidred look. The "N Style Workshap this month will Introduce you to adding bust darts with short row shopping.

Mony times I receive phone calls and questions from readers reparding patterns in the magazine that I can anyl onswer by reading the words of the pattern, as well as looking of the sweater or our madel. In other words, the photograph is the road more occurrent. Even if the words are confusing to me, by looking at how the garment is constructed while of the some time reading the instructions. I can usually figure out the way to proceed. It's a skill learned from my Mother, the incredible kritting technician. Since Mom doesn't make house calls, I was delighted when Leslye submitted the 'Sa Glad You Asked article "Visual-Eyes Your Knitting" to teach you to read the road map of your pattern.

Jack Lew's is back once again to shore his thoughts and observations, this time about "Yorn Sticker Shack." His perspective mode me feel better about my investment portfolio accumulating in my spare bedroom closet. I am never of a loss for lock of something constructive or creative to da. Getting a fix for me entails only a wolk upstairs, winding a yorn "coke," and finding the needles.

Until next time, enjoy your knitting!

Fleece Dog by SINCO

C& T Publishing, ISBN 978-1-57120-433-3

You need needles for the projects in this book, but put away your knifting needles because these designs coll for felting needles - the kind with the incredibly sharp paint and barbs an the sides. If you enjoy every aspect of hoving wool in hond, this is another way to enjoy it. The projects or an amozing arroy at 20 miniature (palm size) dogs designed by a Japanese artist who goes by the name at SINCO. Each one is a breed-specific partrait.

tiny dog show that will sit, stay, and nat make any noise ar a mess! Yau'll find o poodle, pug, ond Pomeranian, beagle, wire-hoired fax terrier, and Scattie, os well as on elegant Afghan hound and a miniature dochshund. The first part af the book explains the basics of haw to do dimensional needle felting and calar blending. The middle partian shows how to construct o dag, while the last section goes into the breedspecific instructions. Needle felting is very easy, but only o true ortist who is able to teach would be oble to create doas and a book like this ane. It's a treat.

The Northampton Wools Knitting Book: The Shop Patterns by Lindo A. Daniels

The Countrymon Press, ISBN 0-88150-683-4

If you hove visited Narthamplan, MA, in the list 152 years, chances are you've discovered the shop called Northampton Wools from which this back was born. All goad krifting stares become the hub of a cammunity, and this one holds a very speciol place for those wha live nearby and come lagether to knit and find yarn. Of course, Northampton Wadis naw

reaches well beyond Mossachusetts. Several at Intal Doniel's degins have even appeared in the movie The Cider Flouse Rules and this book includes lake, one of which ended up on the cutting room floor. As the Itile announces these oe patterns you would find in the shop with accampanying lest the makes you feel like you're hoving a visil. The potterns are varded, easy, and skirt for a little girl. Ingerless mits, scarves, mitered corner boby blanket, vests, hols, pullovers, cordigons, and more for bath men as well as warmen.

Knitting Color

by Brondon Mobly Sixth & Spring Baaks, ISBN 1-933027-07-X

Brondon Mobly, of the Kaffe Fosseth Studio, has exemed his international reputation. His love and understanding afool routing many that the special his wonderful book. The book is subtilled "Design Insignation from Around the World." so make a cup af coffee, but your feet up, and get ready for on ormachiar into across the globe. Mobily's phanta of the projects; his text explains the design process that went into across the whole the projects; his text explains the design process that went into acrossing them.

For example, it's eay to see the source of the Old Tiles Pillow when viewing a photo of a stone wall on the facing page, or how the flower Vest and the blauses wann by Guatemalan children are connected. The fun port: he did all the worft! We simply need to fallow the patterns. The Diamond Throw and Hand Motif Pillows are especially appealing. South Africa can come straight to your living raam, or journey closer to home with a fire Maize Jocket or Horvest Vest inspired by his trip to the US. There are over 30 projects, gloriously presented.

Vogue Knitting Stitchionary 3 (Volume Three: Color Knitting) Sixth & Spring Baaks, ISBN 1-933027-02-9

What a bargain! Two hundred potterns organized by theme: Two-Color, Foir Isle/Mullicolor, Intarsio/Molifs, Adding Setxure, and Sign Sittlens. Everything you ever wanted to know about colar knitting and then signes. They're colling it "The Ultimate Guide" and it lives up to those words. Nate that each of the designs is shawn as a swatch only, and so a campleted sweater, scorf, or

ofghan. There are na project patternsthis is more of a stitch encyclopedia, o resource that leads elsewhere rother than being the final destination. Michael del Vecchio Love at First Scarf

by Judi Kauffman

ichael del Vecchio is o me star in the canstellation of knitting designers: a tolented young man whose nome will scan be as familiar as the name of this first book. Knitting Wift Bolls. When we spoke recently via telephane. Wichael and I discovered we shore the same possions: knitting and ice creom sundoes.

Michael del Vecchio didn't knit when he was a child, but he was always creative. He grew up an the shoreline of Connecticut in Guilford, o suburb of New Haven with an excellent cammunity ort and music schaal. His porents and an ount instilled the idea that being creotive was impartant and finding a way to express it was a priarity. Right after kindergorten he went to the cammunity ort pragram where he drew, made ceramics, candles, and saop. He laved it oll, but didn't feel he drew well so he gravitated mare toword the craft side than whot would be called "artistic." When his family maved to Killingworth, a mare rural area where he lived till college, Michael switched geors ta music, leorning piana the Suzuki methad, listening and playing till oge twelve, then dropped piono and maved ta bass and olto clarinet fram fourth grade through high school. He ployed in the school bond and morching band, went ta regional band canferences, and as the "only" alto clorinet ployer, he was selected for a level af events that ollowed him to wark with "excellent campasers and conductors."

Michael picked up crochet of age 16 when he was a sophamare in high school. He was invalved in theater at the time, and used the endless hours spent sitting and waiting backstage to make what amounted to an endless chain. He didn't realize there was more to arochet than the chain stitch, found

the whale process slow and frustrating. He put his yarn aside.

Michael didn't knit in college, but he continued to be creative. At first, he planned to became o musicion and was an scholarship, his instrument - the oboe. He studied piana, voice, and played the recorder, finally deciding that music wasn't gaing to be his life's poth. A voice instructor told him he was too kind to be a musicion, not gagressive or competitive engugh to lond rales and jobs. It was a discauraging mament, but a pivatal one. He decided the instructor was right. He didn't hove the fire in his belly that he would have needed. His interests turned to French language and literature, subjects he pursued at the Gearge Washington University in Woshington, DC.

Michael began to knit when he was 23. He and a friend went to a dinner party where another guest came and aught them the bosics; how to cost an, knit, purl, and bind off. It came very naturally to Michael. The next day hardrove to a shop, picked up three balls of yarn - which he remembers by nome to this day - and "that was till" You might say it was love at first scart, a frist hat, because thase were his initial projects. Michael was self-lought, knitting far four years befare he took his first afficial class. He tought others almost immediately.

Michael says that all the things in his life brought him to knitting. He simply couldn't put it down. When he wosn't working he was knitting, when he wasn't knitting he was thinking about what he would make next. It was satisfying and endlessly engaging, an activity that could be sharied as well as samelhing to dain quiet moments alone.

Becouse Michael has lang warked in social service, it was natural that he

KNITTING WITH BALLS by Michael del Vecchio DK Publishing, <u>www.dk.com</u>

would connect knitting with his community activities. He started a knitting group to work for Worm Up Americo, omang ather projects, and he has been part at Knit Out DC - always knitting, always teaching, always tearning. When osked if he uses patterns that others create are any the anes he designs, he said he continues to work from patterns as a way of understanding and exploring theories and techniques.

Michael has a day jab that occupies his weekdays from 9-5. He warks at an arts advacacy organization that regrants money so the orts can be used to laster social change (Americans for the Arts). But the rest of the time he has needles and yorn in hand, aften till midnight and always an weekends. He has taught at your stares and gained almost immediate programment to by virtue of being a manying, legislas well as because of his congrangity work. After he oppeoped in several in ewspager

articles, an editor contacted him and asked him to contribute to a baok. As the dialogue continued, it turned into a book where he became the sole designer author.

The result; Knitting With Balls, a beautifully photographed and well-written volume that is chock full af patterns for men to knit for themselves and their friends, or for women to knit for the men in their lives. Michael shared the story of how the baok came together. He said there was a long interval between the proposal, first outline, and the final stages, a time during which his style changed and advanced. But once he had a contract, the book came together in just under three months. He said it was "a juggling act" and mentioned that he had wonderful advisors and help with technical editing, crediting Witt Pratt and Karen Frisa. Michael went to a massage therapist to keep his hands limber and sore muscles under control, recognizing that he had to take care of himself to be able to moke it through the marathon that creating a book usually becomes.

Michael said that doing the book tought him a lot about himself. He said that "Artists go into the process and come out a changed person with a body of work." It was salfslying and difficult, forced him to make lough decisions about his life, and worth every mirule. Of course, as much as Michael loves designing and writing, he said he'd be equally happy buying a house

KNITTING WITH BALLS published by DK Publishing.

in Burlington, VT, where he could knit and teach.

For Michael, the design process is a matter of solving a problem. He comes up with an idea, a question, and then Lurns the problem into a design challenge. He is motivated by the journey as he solves the problem, is the cable right in this position, or that? What would I like to wear? What would I like to wear for hiking, something heavy, but easy to wear? Would if need a zipper so it's easy to adjust with a change in temperature? What would happen if a sweater was

joined other than at the shoulder? When he encounters a problem, he has two choices - to move forward and figure out a new direction, or to rip back and start again.

Michael is articulate about the design process, but soys it's still a myster every time he begins. "Every time you pick up needles there's amazing magic." he soid. "There's this moment when you 're baking that ingredients stop being flour, eggs, and baking soda and become a cake. It's like that with a design, for me. There's o moment when all these

things you want from a garment stop becoming independent chrorectrifics and come together to be the garment you're dreaming of - only you didn't know you were dreaming of . It's the 'aho' moment when I get started. You don't necessarily know what the outcome is gaing to be before the garment is done. You can have a sketch, you can have an idea, but you still don't know, You have to accept that. As an orlist, you have to acknowledge that you're working with lesigns and if at the end of a 3-twist coble it doesn't look adod next to a spill stific lattice.

then you just have to ocknowledge that it's not the onswer you were looking for. Then again, sometimes it is, even if you didn't know you were looking for that answer, but it appears."

Michael's weaknesses will sound familiar. He loves soft your and your that's on sole! He likes to get a package when he arrives hame from work so he enjoys shapping via moil order. But he also loves shapping at local stares where he can talk to people who go to the shows, know whot's coming out, and hove first-hand knowledge of the yorns, just so he loves toking to people who grow the food he buys of a formers' market. He lives and breathes your, and enjoys the company of others who feel the some way.

Michoel's porents ore proud and supportive. His mother is a "fobulous seamstress" and Michoel thinks his possion for knitting and burgeoning success in the field has brought them even closer. Her high standards mirror his own. Michael mentioned that he was first noticed because he was a man who knits, but he is very clear about feeling that he is first and foremost "a person who knits" - emphosizing the word "person" without moking it obout gender. He knits because he likes it: he says he con't speak for all men who knit. He knows the long history of men who knit. but it's not something he dwells on for the most port. He believes simply that kind and accepting people who knit will welcome other knitters - beginners or otherwise, both men ond women and that's his gool; to be kind and occepting, to encourage onyone who wonts to take needles and yorn in hond. He remorked, "Women ore going into the mines, men ore going into the knitting stores. Ultimotely people need to reolize that we're all here to do something we love." Well soid, Michaell

Michoel is only 28, which means we can look farward to what he's going to be up to for the next five or six decodes. More boxes of yarn arriving of his front door, followed by more designing, another book, perhaps, but olways more magic taking shape as his needles fly.

Michoel del Vecchio is co-lounder of <u>www.menkail.nel</u> – i he online resource for men who knil – ond editor of the <u>www.menknil.nel</u> quorterly e-zine. His designs ond writing hove appeared in vorious publications, and he leoches knilting on weekends. Michoel lives in Woshington, D.C. and his blog is trickylifical typeopd.com

Visual-Eyes Your Knitting

by Lesive Solomon

It's a problem...

hen trying to get twa pieces of knitting made to the same length or finding and following where you are in the pattern. This is a prevalent problem for both new and, surprisingly, experienced knitters. It amazes me that many knitters knit but they don't actually see ar get ta know what they have done. They frequently make mistakes. Peering at the structure of the knitting, not just fallowing the directions, can actually help you become more aware and ultimately more skilled.

What if you could recagnize and count your rows and loak carefully at stitches so you know where you are and what you need to da next? It might make knitting less frustrating. Being mare observant can lessen vaur dependence on tedious methods of keeping track and can help you to avaid making mistakes: daing the wrong thing at the wrong time.

In the beginning...

there was sa much to worry about like where to insert the needle, how to wind the yarn, haw funny it felt when your tongue gat dry focusing on bringing the new stitch through the right "hole." Subsequently, you kept on daing the same thing without deviating fram that set of tasks until you were finished. Finished means vaur piece was as long as you wanted.

Remember when you knew knitting...before purling!

Now that you may be (ar not be) beyond working within a set pattern. not only are vau forming stitches, but you are performing particular kinds of stitches, in a repeating pattern, alternating knits and purls. In order to keep track of these patterns, I've seen knitters completely rewrite baak and magazine directions on 3 x 5 cards, diligently moving each card with every row. Whew...that's too much trauble! I've knawn knitters wha, when making a seed stitch scarf, always need to start off with a knit stitch, simply because they haven't yet identified the structure of the seed stitch fabric, identified how it is made, and determined what to do if the pattern didn't start off with the knit stitch. Add in some increasing, decreasing, and these knitters have a meltdown. They should not depend on always starting with a particular kind of stitch ar all thase dreaded cards. All they really have to do is look at the first stitch, as it will tell you what to do.

Ever forgotten to bring your counting addget?

Did you forget to turn that little dial an yaur gadget when you were supposed to and felt incredibly lost?

Using one of the many farms af row counters for shaping, cable crassings, and yarn-overs is very helpful and mast aften essential. Have you ever felt like nat aetting up to get your caunter in the other room because - well, to be honest, you are feelin' toa lazy or the dog or cat curled up on you was just too cute and comfortable to disturb? All kidding aside, knitting a toa long or too short fabric, a wrong row cable crossing, or an incorrect knit or purl can be very frustrating. Let's see if awareness of being more observant can help.

It's time to scrutinize

Haw do you make two pieces the same length? When you try to do a simple thing like measure a piece of knitting, which af the seven different measurements of this malleable, springy, and stretchy fabric shauld you take ar should you trust? Do you lay the knitting down, hang it fram the needles, ar is there a more accurate way to know if you've made two identical lengths? Cansider something simple and rarely done such as caunting your raws. It's really not very hard. The mere suggestion initiates graaning and skepticism.

How to count your rows

You should know how to count your rows. Far stockinette stitch, turn it to the purl side. See these ridges? Each one of them is a row. Not only can you measure full rows or ridges, but you can see a quarter, a half, and even threequarters of a raw - great far knowing your row gauge. If you just want to measure the first piece with your tape measure and make another one exactly the same length, count the ridges of the first piece and make another one with the same number of ridges. If your pattern says, "work until piece measures 10 inches" (just when you need to shape your armholes, far example) and you have 61/2 rows to the inch, you need to count 65 ridges. Begin at a known starting point: the very beginning of the cast on ar at the point above ribbing, and count to and include what is on the needle.

Photo 1: Note the structure of a garter stitch row

I have made () () of stockinette stikmiting the black marking to indigate the faw). This dauble ridge, easily seen on the purl side is

a very "countable" part of the structure of the knit fobric. In gorter stitch, however, each ridge is the result of 2 rows hoving been knit. In order to colculate the number of rows, you would simply count the ridges and multiply by two.

Tip: Count the ridges on both sides for garter stitch. They should be identical. If you have 10 ridges on one side and 9 ridges on the other side, you have produced 19 rows. Isn't knitting amazing? 10 ridges on each side would be 20 rows knit.

A gadget for counting that is not a counter?

Can't see the ridges because your stitches are too small or your eyesight is not great? Get some magnifying glasses just for counting and a use pointer (like one of your needles). Even though your eyesight might be normal, you can easily find those inexpensive, cute, ond colorful glosses. Eye doctors promise we'll never get out of our forties without owning multiple pairs in every room. Used os "reoding glasses," (photo 2) these glasses hove various

Photo 2: Reading glasses are available in different magnifications.

magnification strenaths. Storting at obout 1.00, they go up incrementally in strength to 4.00. For counting, I'd get o strong magnification. These are only for close inspection and not to be used for distance. Put on these glosses, odd in some good light, and you can see your stitches and rows clearly for counting. The some number of rows on each piece is much more accurate than just measuring with a tape measure.

Tip: Count the horizontal bars in your ribbing created by the purl stitches (photo 3). These should be identical on obove it. Here you can see the two the front and the back of your garment.

counting.

When it comes to shaping...

be observent. Don't just do the increase or decreose. Stop for a second ond look at it to see what you've done. When keeping trock of decreases, you could just use o row counter (or that recently opened envelope) to keep your score of the frequency of decreoses, but what if you forgot the counter? No problem, if you just use your eyes. Let's say you are instructed to do a decrease every 4th row. Photo 4 shows

Photo 4: Decreasing two stitches into one stitch.

what it looks like when you hove just completed a decrease ofter the first stitch. With your magnification glasses on, con you see the two stitches together? Photo 5 shows one row

Photo 5: One row beyond the decrease row.

stitches knit together, locoted one row below. Photo 6 shows when you have

Photo 6: Three rows beyond the decrease row

reached 3 rows above it, and it's time to decreose again- you'll know when to do it becouse you'll know what it should look like at that time. By looking for the previous decrease and the subsequent rows obove it, you can increase your awareness and become consistent with less mistakes.

Keeping your cables perfect

It is empowering to be oble to keep track of coble crossings. Here's a way to count your rows so you can be sure you don't make this crossing too soon or too lote.

Photo 7 shows o newly crossed coble. Look of the rother lorge hole created by the twist, and the line of yarn obove the hole indicates the knitting of the

Photo 7: Newly crossed cable.

crossed row. Photo 8 shows two lines of yorn over the hole, the crossing row plus one more row. When it will be time to cross ogain, you will see the hole ond 4 lines obove the cross in photo 9.

If you ore crossing pereyery) 4 rows, when you see 4 rows or har jontol yarns.

2007-05 continued on page 18.

Visual-Eyes Your Knitting

Continued from page 17.

Photo 8: The crossing row plus an additional row.

you've completed the 4 rows and you are now ready for the next 4 raws (the cable row plus three mare rows). Of course, you'll also have the visual cue af being ready to do the right side, as you usually don't cross on the purl side. Fewer "miss-crossed" cables will result when you learn to count between the holes.

Photo 9: The crossing row plus 3 additional rows.

In summary, I suggest with every pattern make an attempt to study what it looks like after each step. Become familiar with the structure, and know how it should look. Undaubtedly, knowing the stitch structure, like the back of your hand, will undaubtedly raise your skill and enjoyment level.

Yarn Sticker

Shock

by Jack Lewis

uality yarn costs real money. Even to a knitting newbie such as me, this was clear immediately. Far less obvious were the reasons others would invest their time and money knitting.

Actually, I had never thought much about hand-kin garments, like milk. I assumed sweaters come from the store. I could recoil to egule that bioneers made clothes from flour sacks, women krit socks during wors, and grandmathes kint cute boby clothes. My guess was that most people krit to save money on holiday diffs. Livned out I was wrong.

I began kritting without ony needlecraft experience. I had seen kritters use needles to twist wool into sweaters. If asked, I probably could have sorted yarn by color: red from green from blue. But I didn't know for certain whether the bals of yarn were plucked from sheep ready to go, or the color added later. I had a lot to learn.

My first lesson dealt with the cost of kni-ling, This occurred before my bacis kni-ling class even began. To my surprise, I learned that quality year for a hand-knil sweater can cost more than a moss-produced sweater. And, this didn't include the time spent knitting, Hand-ande sweaters can easily not hundreds of dallars, especialty when the labor involved is calculated, let's say at half the houty minimum wage, and added to the expense of yorn and loaded

At first this information did not compute whatsever. Based on cost comparison, if made no sense to me to pay more to kind a sweeter than buy one from a stare for less money. However, Linda, my very smart friend, was passionate about kniting and encouraged me to keep on open mind. So I look my first class, only to find that knitting grabbed my interest and then took over my lessure time.

Getting Started

My first visit to a vam shop was to register

for class. Emmett. The store owner, described the class and honded me a supplies list. He could see I had no idea where to begin and offered to help find what I needed. I followed in a daze as he filled my basket with yarn and tools for knitting the class projects: a rolled-edge cap and a multi-colored tote bag trimmed in novelty yarn. I knew immediately I'd never wear the cap nor carry the bag (just not me). But; since learning to knit was more important than the finished object. I pushed ahead.

Back at the register, Emmett tallied the supplies, class fee, and sales tax for a total of \$216. This was my first experience of yarn sticker shock. Feighing nonchalance, I used my debit card and left the shop. In the car I studied the sales slip to see how five balls of yarn, two poirs of needles, scissors, crochet hook, row counter, stitch marker, and darning needle could add up to so much money. Having paid for class, I wowed to leom to krift.

Knitting fascinated me, even without a natural talent for it. Every technique proved more difficult and frustrating than I anticipated. What's worse, my project results were mediocre. My first mattress stitch looked more like a turkey truss than an invisible seam; my felted tote was peculiar enaugh that neither friend nor foe would take it. Yet, despite the learning curve and lackluster results, knitting exerted o mysterious hold on me. During the final closs session, the teacher announced two new classes to start immediately. I registered for both, which meant buying more yarn and supplies. This time, I used my debit card without hesitation.

Spending Frenzy

Money flowed like water for the next six months as I took every available class. I bought whichever books and tools promised easier knitting. I donated my finished boby sweater, pillow, aiff bag.

scarf, and blanket to the unsuspecting. I learned plenty, made lots of mistakes, and paid without complaint.

Still, I was curious what a typical beginning knitter spent in one year. I asked my knitting friend, Linda Braley, Store Manager with Cultured Purls in Issaguah, WA, for an estimate, Linda reported that Mary (not her reol name) took a private lesson (\$25) and a project class (\$45) to knit a scarf and hat. She bought two books: o how-to-knit booklet (\$6.95) and a hardback with the pattern for a felted bag (\$24.95). Mary selected medium- priced synthetic blends for the scarf and hot (\$38.85) and wool for the bag (\$41.70). She bought two pairs of US 8 and US 13 needles, plus a gauge, scissors, tape measure, and darning needle for \$34,75. Her grand total: \$217,20.

Yikes, I surpassed a typical knitter's expenses during my first class and was headed toward obsession. In search of a good rotionolization, I decided to investigate how knitting costs compared to other forms of recreation. For instance. searching online, I found that a oneyear subscription to Sudoku puzzles costs \$179. (Kept looking.) Kerry, a co-worker, cycles competitively. He guessed \$600 for a basic recreational bike and minimum gear - not including a calorful jersev or durable half-finger gloves. Mark, a regional ice hackey coach, estimated \$800 minimum per child to cover the first pee-wee hockey season. (Felt better.)

A friend, Rose Michelle, poid \$3,000 the first year for cell entoil, sheet music, and weekly lessons for her daughter. Recently, in keeping with her talent. Dominique upgraded to her own cello valued at \$7,500. (Way better!) Janis and thorold, owl anownoble enthusiasts. figured that a sled, trailler, cover, gear, sofely look, series 108, 146, 100, on a diagnosphip to the second as for the second states of the second series of

rider. (Tauch dawn!) Happily my annual knitting outlay did nat came clase to that af a serious golfer, downhill skier, campetitive ballraam dancer, or a shaw-jumping circuit rider. (What a relief!)

Cutting Costs

Nevertheless, if Many did so well cantaining costs, I wanted to do the same. First, I chose cheaper yarn for class projects. Oh, mercy. My knitting pleasure nose-dived immediately. Sticky mornade yarn did not glide like natural libers. Wid dyes did not poss for rich, nuanced colast. Using synthetic yarn made me cranky. I had traded a meditative calm far jabbing, custing, and maoning, Nope, yarn substitution was a non-starter for me.

So I turned to yorn clearance sales, looking far quality yorn at discours. Eurekal Trees times, I spent hundreds of dallas on waw yorns reduced farty to fifty percent. Unfortunately, the secrets of gauge, yardage, and weight eluded me. I chase yorn by coior and feel only, Sale maderless and wild imagination overtook me. I let yarns inspire me, without calculating whether the add tols available were enough to kin! a sweater. I baught piles of luscious yorn. For dublous reasons. Three years later, most of it emains unfouched in my stabs hisr. Hopedhilly, as my design skills evolve, these early bargains will pay dividends. But in retraspect, I locked the know-how to save money from yens sales.

Making Sense

After three years, my knitting skills have improved and expenses gane down. I own enough tools and take fewer classes these days, I rely on more experienced knitters to answer most of my questions. The investment in classes, tools, and backs will continue to pay dividends over my knitting lifetime. I feel no regret for money well spent.

My your purchases have changed too. By trial and errar I defined my knitting preferences. Now I shap for brands of wool I like best, in the weight, gauge, and calors that work well for me. To ovaid surprise, I knit test swatches before ardering yarm. As a deliberate knitter who fours US 2 needles, I finish only a few sweaters per year. After dividing the cost of yarn for three or four sweaters by hours of labor involved, my knitting averages \$1.50 per hour. That's less than a lattle, less than a dessert with dinner, less than a paperback novel, and less than a movie. Campared to other recreation, the hautry rate for this postime seems quite reasonable.

Nevertheless, I still encounter yarn sticker shock, anly naw it's from a reverse perspective. I've came to value the process perspective. I've came to value the process possibility, the getting there, even more than a final autput, for me, the quality of experience trumps productivity, Knitty of experience trumps productivity, Knitty of the process of the process

Kritting gives me big bang far the buck. I krit for the excitement of beginnings, curiasily of learning new techniques, challenge of carecting mistakes, discipline of follow-through, commond of Impeccoble finishing, and pride of accompliatment, foddy mitting is my favorite low-fat, nan-stress, solitary activity. I'm amozed that a ball of yarn con pack such benefits foir a low houtly rote. Certifulde is the other side of yarn sticker shack.

Jack works in Seattle, WA, as a marketing consultant in order to fund his knitting practice. He can be reached at jack@realmenknit.com.

The Great Adirondack Yarn Co.

A Craving for Color

nce upan a time lang ago, in the early 1980's. The Great Adirondack Yarn Company Inc. was a retail shop, lacated in a small city near Sarataga. NY. It had a beautiful oak cigar case to hald all the yarns. big picture windows, and pretty rugs on the floors.

Polf Subik, owner of The Great Adianatook. Form Co., has two passions in her life (not counting her husband. Poull). The first is king on a 34 acre farm, surrounded by horses, dags, and cals. Her other passion is calar. The yarns and shop evolved from loving color in any farm, ond she discovered that knitting was a great way to be able to express this bits.

Patti and Paul

It took Potti abaut faur years to realize, while she loved the knitting and yarrs, she did not canfarm well to the required structure that running a retail business entails, and she felt she had na realisense of what she really wanted to do.

Remember Patil'is ather passion? It's horses. Patil has been fiding since she was very young, and she has a fand-mess front all; story kind of horse. She owns, ides, and Irains show Jumpers - those Grand Prink, high energy, powerful, jump over fences and walls kind of horses. She was thing to find a bolance between running the shap & managing the staff, inventory, and

traveling and campeting in harse shows. In the end, she felt very divided (not giving her full attention to either of her passians) and, in general, very frustrated.

In the mid-1980s, an article appeared in Spin Off magazine about dyeing yarn. Patti thought that sounded like great

Hope and Patti

fun (nate: no business plan yet). She began ta play a little in dyeing yam (which turned aut ta be a lot) and promptly sold what she had dyed. The sale became a double-edged sward. Patti was both happy to make the sale, and yet sad to part with the pretty, colarful yams. That sale encouraged her ta dye more (note: still na business plan).

At this point, she was far more interested in playing in the dyes and with the fibers than developing that business plan. By now, Path had dyed up a lat more yarn and took it to a craft show, promptly selling out of every piece. Path said, "Oh, bay, this is fun!" Path sarted thinking, "Maybe I can move the business home to the farm and I can dye yar when the shap is quiet." Little did Path know this was the beginning of a new woyl affe, and she had discovered a wonderful place to run a business.

In the mid-1980s, Patti phased out the retail part of the business, as she realized the dyeing was the path she wanted to follow. Just before Patti closed the retail shap #809M, size met with a soles rep from \$600 Might a

Racks ready to go to the TNNA Show

soles rep drave out to the form for the first appointment, and Pott had forgaten to tell her that one of her retired show horses was allowed to roam around the property loose. The rep opened her car door, only to be face to face with Brack! The good news is the soles rep recovered from the shock of being nose to nose with a horse and, to this day, is a dear friend of Patti, os well as one of Great Adirandack's soles reps. She was very instrumental (olong with Dione Fitzgerald from Tahki Yarns) in jump storting Great Adirandack Yarn into the business it is today.

In the lote 1980s, the first expansion of the business took place in the form of on addition to the "warehouse." Since then, the Subiks nave added on 3 times, plus built on new dye shop. Patifithinks she still could use more room; however, Paul says that it's because has seems unable to live with empty space. Paul says that Patificets a need to fill space with "something."

All this success with the yorns doesn't come without some bumps along the road. Path soon realized that between lying to keep track a finventory, taking on more reps, more shops, and more new colors and yorns, it was a big learning experience in how to delegate, instead of always thinking she could handle it all by hereit it all by hereit it all by hereit it all by hereit.

The Great Adirondack Yarn Co, now employs 8 full-time and 2 port-time emplayees. It's o group effort when it comes to giving the yorns and the colors their names. Michelle does the bookkeeping, Lourie wears a dozen hots, from yorn labeling, shipping, and

Lucie and Great Adirondack Bears

more. Angela is our computer wizard. The full-time dyers ore Colleen and Croig and sometimes Patti. Paul, Patti's husband. takes care of the 34 acres and 5 horses, along with the ather four-leagued supervisors.

The rest of The Great Adirondack Yarn Ca. family includes Gracie (the shep-herd-lob mix), Peanut (the "un-pit bull" rib bill, Rick (the 4 lb Siomese who is the guardian of Peanut), Big Dude (the 18 lb cat), Lucie (the block and white 17-year-old cat who loves to be in every photo taken) and Squirt (the youngest cot, who can never make up her mind to be in or out).

In the poddocks, you can meel Paths; youngest harse. Hope, the "star" of Great Adrondock Yorn's new advertising campaign. She is a Canadian Sport horse and not only very tolented, but beautiful both inside and out. Paths; other show jumper, Latillo, is a Dutch Wormblood, also very talented, not so an increasible stary behind her. She almost had o tragic ending to a bod occident (before Path Iround her). Good news was the foiry-tole ending, with bolita gaing back to the show ring, opoinst oil odds. Of the other theories in the formit, two are refired, and

By 2007. Great Adirondock Yarri's product line has grown to over 100 types, It's Yarn. and as mony colorways. It's Yarn., when working with color so that the color is the color and the color in a collect cat, or and afind magazine. Each one of The Great Adirondock Yarn Co, is inspired by the world oround themselves, and the color sone some strains on cases.

Although well known for yorn colled "Filloff" (It was the company's best selling yorn up until a couple of years ago). Their product line dos includes classics such as pashmina. Id mohair, angoro, a wide ronge of great was and wool bleads, from lace weight, to bulky, and any combination of these fibers. Also look for cottons, royons, in smooth to lumpy and bumpy, as shirty tacked in here and there. For

A riot of 997 To bapitation

A Craving for Color

"Angora" from The Great Adirondack Yarn Co

over-the-top bling, Potti found hologrophic sequins shaped like teardrops, and sequins in every color of the roinbow, and all con be dyed in any ovailoble color.

In quest to always find the unusual. The Great Aditrodack Yam Co. is now over-lapping into the fobric and scrapbook-ing industry. The ribbons and novelty yams are used in such creative ways that Patti draws inspiriotion to apply some of those ideas into sweaters. Patti discreports in the last couple of months o resurgence of local yam shaps asking for noveltles again, and that includes

such fibers that are bumpy, or fluffy, or shiny. Patti loves to mix and motch fibers, creating texture. She feels they always will have a place in Great Adirondock Yarn's product line. Sometimes they are the finishing touch to a sweater or tim for an occessory that makes it a special piece.

In any spare time Patti con find, she olso works with polymer clay, to make buttons, and more, discovering a technique which makes the polymer look like gloss. Each side of every button is somewhot different, even though they are all made from the same cone. They are oil made from the same cone. They are oil mode from the same cone. They are oil might be from Great Adiandack Yarn in limited quantities of 4 to 18 buttons at a time. The Chao Lhou Vest in the February 2007 issue of Knit "N Style showcases a set of Patti's buttons.

As Patil enters her third decode of combining color, fiber, and knitting, we eagerly look forward to what she brings us in terms of texture and new fiber combinations. Patil says, "My Mom has always said there is something for everyone, and she loughs of me when I tell her she is responsible for me having a lot of yarn. By the way, she just turned ninety, this year. When I was little and bugging her, she used to sift me down with a box of crayons and poper, and tell me to entertain myself and let her get her work done. This may be a more sophisticated form of playing with color. I think, and for all of you that love color and texture, you will understand what I mean." Yes, we do Patti - yes, we do.

On our cover, we leature o collaborative effort between Potti and designer Jone Elliot from Not Just Plain Jane Knils, Jennifer models Rosebud's Request ond Trillium Shaw, Jeduring five of Great Adirondack Yam's libers, beginning on page 48. Eoch piece of this ensemble is ovail-

able from The Great Adirondack Yarn Co. os o separate kit.

To locate a shop neor you that carries yorn, kits, and potterns from The Great Adirondack Yarn Co. call Patti at (518) 843-3381.

Fitting Your Knits

How to Add Bust Darts With Short Row Shaping

By Margaret Radcliffe

e hand knitters are frequently disappointed when we finish a sweater, because it just doesn't look the way it did an the model. We can't actually try on the garment for fit until it is finished, and then it's too late. The good news is that a sittle planning can make a big difference.

One of my particular annoyances is the way that the back of a sweater hangs lower than the front. The front pulls up for two reasons.

 There's no back neck shaping so the shoulder seams are forced further back than they should be, lowering the back and raising the front. The solution to this problem is to use sweater patterns that include back neck shaping (photo 1).

Photo 1: Garment with and without back neck shaping

2. In women's sweaters, the front is also pulled up by the wearer's bustline. Adding bust darts corrects this problem. Whether you're designing a sweater on your own or working from someone else's instructions, you can add darts using short-row shaping.

SHORT ROW HOW-TO

There are just two things you need to know to work short-row shaping: how to "Wrap and Turn" and how to "Pick up the Wraps." The purpose of wrapping a slitch is to prevent a hole at the turning point. Picking up the wrap later is a cosmetic fix done to hide the wrap.

* Wrap and Turn

1. Slip 1 stitch purlwise (photo 2).
2. Wrap; if the yarn is in back, bring it to

Photo 2: Step 1 - Slip 1 stitch purlwise

the front between the needles; if it's in front, take it to the back (photo 3).

rnoto 3: Step 2 - Wraf

Slip the stitch back to the left needle purlwise (photo 4).
 Turn your work (photo 5).

Note that you can also do the last two steps in the opposite order: first turn your work, then slip the stitch to

Photo 4: Step 3 - Slip stitch back to left needle

Photo 5: Step 4 - Turn work

the right needle. Now position your yarn wherever it needs to be to begin working again (in the back to knit, front to purl).

* Pick up the Wraps

 Whenever you come to a wrapped stitch, insert your right needle up into the wrap from the front (photo 6)

Photo 6: Step 1 - Insert needle up into wrap

2. Then insert the needle into the first stitch on the left needle (photo 7).
3. Knit them together (photo 8).

Just a few hints: There is no right or wrong way of doing him—It's just a malter of making it look the way you want it to look. If you're working on the put it of the wrop on the side away from you, then into the side owy from you, then into the side to way from the wrop on the side away from how the work of the wrop on the side away from you, then into the side of you have been you like the way it just you got just on the individual of the way it just you for the way it just you have you and do it differently until 100s good. It

Photo 7: Step 2 - Insert needle into stitch

Photo 8: Step 3 - Knit the two together

helps to use needles with langer, sharper points, because blunt ones can be difficult to get into the wrap.

ADDING BUST DARTS

Darts are quite unobtrusive in plain stockinette stitch. Incorporating them into a simple textured or colored pattern may require a bit more planning. but is worth the effort. One way to deal with very complex patterns is to create plain panels along the side seams and to restrict complicated patterns to the center front and back.

Measuring for Bust Darts

Bust darts are, necessarily, highly individual. To insure accurate measurements, wear whatever underwear you would normally wear under the sweater, fosten a belt snugly around your waist (you'll see why in a moment), and get someone else to do the measurement with a flexible tape measure.

Measure from the top point of the shoulder to the top of the belt, straight down over the point of the bust in the front. Measure from the same point at the top of the shoulder straight down to the top of the belt in the back (photo 9). The difference between these front and back measurements is the height af the dart.

Multiply this times your row gauge to get the height in rows. For example, if

Photo 9: Measuring the height of the dart

the front measurement is 22" and the back measurement is 19.75", then the difference is 2.25". At a gauge of 7 rows per inch, 7 rows x 2,25" = 15,75 rows. Divide this number in half, because you can only work the short-row turning on alternate rows, $15.75 \div 2 = 7.875$ short rows. If you end up with a fraction, just round off to the nearest whole number. In this case, I'd round up to 8 rows. This is the number of short rows you'll work ta make your dart.

> Holding vaur arm out to the side, have your helper

> measure horizontally from

the side seam out to the

paint of your bust (photo 10). Because it should stop

a bit short of the point,

subtract 1/2" to 1" from this

measurement. Multiply

this times the stitch gauge

to find the width of your

dart in stitches. For exam-

ple, at 5 stitches per inch.

a 4" dart would be 5

stitches x 4" = 20 stitches.

Photo 10: Measuring the width of the dan

Planning the Dart

Now that you know how many turning rows there will be (8) and how many stitches there are to work with (20), you need to figure out the number of stitches left unworked on each turning row. Take the number of stitches and divide it by the number of turning rows. You'll probably end up with a fraction, like this example, where 20 stitches + 8 rows = 2.5 stitches. You can't work a half a stitch, so you're going to need to do a little more work to figure out how to handle this. Here are three different salutions that will get you close enough for a good fit:

Quick and Easy Solution: Just round off the number of stitches to 3. Three stitches x 8 rows = a dart 24 stitches wide. In this example, that's mare than half an inch wider than the original plan. This may be OK if you planned for your dart to stop 1"

short of the bust point or if it's a loose-fitting garment. On the other hand, if this would bring the end of the dart out past the point of the bust, don't do it (photo 11)!

Photo 11: Chart for 8 short rows and 3-stitch increment

Exact Solution: Since 2.5 is halfway between 2 and 3, you can alternate 2 stitches and 3 stitches until you've used all 20 stitches. If you alternate 2 stitches and 3 stitches just 4 times, you get exactly 20 stitches, $(2+3) \times 4 = 20$ (photo 12).

Photo 12: Chart for 8 rows alternating 2 stitches and 3 stitches

Compromise Solution: Reduce your dart to 7 short rows and work 3 stitches on each, for a total of 7 rows x 3 stitches = 21 stitches. This will make your dart 2 rows shorter (obout 1/2") and 1 stitch wider (about 1/6"), neither of which should make much difference in fit (photo 13).

If all this multiplication, division, and rounding makes you uncamfortable, sketch out a plan on a piece of graph paper, which will show you the actual shape of your dart dart should be slowled one square 2007-05

per stitch.

- Mark a point os many squares below one end of the line as there are rows in your dart.Drow a diagonal line from this point to the other end of the dart.
- 4. Draw in stairsteps two rows high to match the slope of the diagonal line, because short rows can only be worked every other row. Each step is the ending point of a short row.

Knitting the Dart

Let's use the Compromise Solution laid out above: 7 rows and 3 stitches. This means you'll work 7 short rows and on each of these you'll leave 3 additional stitches unworked.

Work the back of your sweater first, then hold is against you, with the shoulder of the piece at the top of your shoulder, and mark exactly, where the dart should meet the side seam (a safety pin's good for this). This point should be even with or a tiny bit below the point of the bust and will usually be below the armhole. Work the front of the sweater until your each that point.

Row 1: Wark across in pattern toward the side edge of the front. This may be a right side row or a wrong side row. When you are 3 stliches from the end of the row, stop (these are the 3 stliches you'll leave unwarked), Wrap-and-turn as described above.

Row 2: Make sure your yarn is posilioned properly for the next sitch (front or back), then work three more stitches. Now there are 6 stitches on your needle, the 3 you didn't work when you for the young of the young of the young row. Place a marker on your needle as a reminder to stop at this point, then confinue across the row in pattern (photo 14).

Photo 14: The marker shows where to stop on the next short row

Keep repeating these two rows.
Remember to:

- 1) Stop at the marker each time on Row 1.
- Remove the marker.
- 3) Wrap-and-turn.
- Replace the marker at the next planned turning point.

When you've turned back 7 times, there will be 21 stitches on the right needle after turning and the short-row shaping in this example will be complete. Don't bother to replace the marker. As you work across the next row, pick up all the wraps and knit (or puri) them together with their stitches. Your dart is done (photo 15).

Photo 15: The finished dart

These instructions make just one dart at the side seam as you would for the front of a cardigan. If you're working a pullvaer, you'll moke both darts at the same time. Work toward one edge, turn and shift your maker, hen work toward the other edges, turn and shift your maker. As you do this repeatedly, you'll work a smaller and smaller section across the center front. When all the short rows are completed, pick up the wargos over one dart on the next row, then the wraps over the second dart on the following row.

SHORT ROWS IN PATTERN STITCHES

in a complex pattern stitch, involving cables, Invisted stitches, or increases and decreases, you should try out your dart in a swatch before working it in the garment itself. If it's difficult to work in the swatch, then charting it along with the pattern stitch could help. The dart may fit better if begun on a particular row of the pattern stitch. The pattern repeat should also be a factor in planning your dart; for example, If you are working a pattern with a 4-stitch repeat, you may want to work 2 or 4 stitches fewer on each short row, making it sever an each short row, making it and the stitches and the stitches are such short row, making it sever an each short row, making it sever.

Photo 16: Dart in faggoting rib, using a 3-stitch increment to match the pattern stitch

easier to keep track of the pattern stitch as you work (photo 16). For garter stitch, wrap to prevent holes from forming, but don't bother to pick up the wraps later because they'll disappear into the garter ridges (photo 17), In a knit-put (extuned pattern, you

Photo 17: Dart in garter stitch, without picking up the wraps

may decide that purling the wraps together with their striches looks better, depending on where it falls in the pattern strich (photo 18). Always take care on the first complete row above the dart to wark the next pattern row all the way across so that the pattern is continuous at center front, even though it has been interrupted at the dart.

Photo 18: Dart in ribbing, purling the wrap together with the stitch to maintain the ribbing

DESIGNER NOTES

· In the pattern directions below, each letter means that one strand of that particular vam is to be used. For example, AB would mean to use one strand each of yarns A and B; ABH would mean to use one strand gagh physicis A, B and H.

SEED STITCH PATHENISM Style Row 1: "K1, P1; Reprint The cross. Row 2: *P1, K1; Rep from * across.

Rep Rows 1-2 to est the Seed St pattern.

With smaller ndls and yarns ABCDE, CO 50 (56, 62) sts. Work in 1x1 Rib for 21/2". Change to larger ndls and yarns BFG and work 8 rows in Garter St. Next RSR: Change to yarns ABH and work in St st until piece meas 11½ (12½, 13)" from CO, end on WSR.

Shape Armholes

RSR: Cont with yarns ABH, BO 4 (5, 6) sts at beg of next 2 rows, then dec 1 st each end every RSR 4 times. Work even on rem 34 (38, 42) sts until armhole meas 71/4 (73/4, 81/4)11. Shape Shoulders

BO 9 (10, 11) sts at beg of next 2 rows. Place rem 16 (18, 20) sts on stitch holder for Back neck band.

LEFT FRONT

With smaller ndls and yarns ABCDE, CO 22 (26, 28) sts. Work in 1x1 Rib for 21/2". Inc 1 st on last rib row for sizes Small and Large only - 23 (26, 29) sts. Change to larger ndls and yarns BFG and work 8 rows in Garter St. Next RSR: Change to yarns ABH and work in St st until piece meas same as Back to underarm.

Shape Armholes

BO 4 (5, 6) sts at beg of next row. Dec 1 st at armhole edge every RSR 4 times. Work even until armhole meas 5 (51/2, 6)", end on WSR.

Shape Neck

RSR: Work across 12 (13, 14) sts. Place rem 3 (4, 5) sts on stitch holder for Front neck band. Keening to pattern, dec 1 st at neck edge every row 3 times. Work piece to same length

as Back. BO rem 9 (10, 11) shoulder sts.

RIGHT FRONT

With smaller ndls and yarns ABCDE, CO 22 (26, 28) sts. Work in 1x1 Rib for 21/2". Inc 1 st on last rib row for sizes Small and Large only -23 (26, 29) sts. Change to larger ndls and work in pattern as follows: Rows 1-2: with BFG knit. Rows 3 & 5: with ABH knit. Rows 4 & 6: with AGH purl. Repeat these six rows for Right Side pattern. Work as for Left Front, reversing all shaping.

LEFT SLEEVE

With smaller ndls and yarns ABCDE, CO 26 (28, 30) sts. Work in 1x1 Rib for 21/2". Inc 8 (10, 12) sts evenly across last rib row - 34 (38, 42) sts. Change to larger ndls and yarns BFG. Work in Garter St until sleeve meas 7 (8, 9)" from CO. Shape Sleeve Cap

Next RSR: BO 4 (5, 6) sts at beg of next 2 rows, then dec 1 st each end EOR 2 times - 22 (24, 26) sts rem. Work even in pattern until sleeve cap meas 5½ (6, 6½)", end on WSR. Next row (RS): K2tog across row - 11 (12, 13) sts rem. BO tightly.

RIGHT SLEEVE

With smaller ndls and varns ABCDE, CO 26 (28, 30) sts. Work in 1x1 Rib for 21/2". Inc 8 (10, 12) sts evenly across last rib row - 34 (38, 42) sts. Change to larger ndls and yarns ABH. Work in Seed St until sleeve meas 7 (8, 9)" from CO. Working in Seed St, shape cap as for Left Sleeve.

FINISHING

Sew Front to Back at shoulder seams. Neck Band

With smaller ndls and yarns ABCDE, pick up and K 3 (4, 5) sts from Front neck holder, 6 (6, 7) sts along side of neck, 16 (18, 20) sts from Back neck holder, 6 (6, 7) sts from other side of neck and 3 (4, 5) sts from other Front neck holder - approx 34 (38, 42) sts evenly around neck opening. Work in 1x1 Rib for 4 rows. BO in rib. Left Front Band

With smaller ndls and vams ABCDE, pick up and

K approx 46 (50, 54) sts evenly along Front edge. Work in 1x1 Rib for 4 rows. BO evenly in rib. Mark placement of 5 buttons, beg 1" from bottom hem edge and ending 21/2" from

Right Front Buttonhole Band

Pick up sts as for left Front Band. Work 2 rows of 1x1 Rib. On next row, make buttonhole by working a yarn over then K2tog to correspond to button placement. Work a total of 4 rows of rib. BO loosely in rib. Assembly

Set in and sew sleeves. Sew sleeve seams and side seams. Sew on buttons. Weave in all ends.

Designed by Debbie Miller for Ironstone Yarns.

GAUGE

2 strands tog

• 20 sts and 24 rows = 4" in Trinity St holding TO SAVE TIME, TAKE TIME TO CHECK GAUGE.

2007-06

Designer Notes

· This garment is made by attaching one strip to the previous strip as you knit. There is no assembly involved to connect the strips. It is very important to knit an edge stitch. There are many ways to do so, this is my favorite technique; slip every LAST stitch purl wise and knit every FIRST stitch through the back.

. The Chart will indicate two letters representing one strand of each color to be held tog.

. You can make this garment as long as you desire; simply knit longer BODY strips (Front and Back). Be aware that yardage amount listed above are for approx 21" strips.

· Each strip should meas approx 4" wide (20 $sts = 4^{\circ} + 2$ edge sts).

Trinity Stitch

3 sts, end P1, K3.

Rep Rows 1 – 12 to est the Garter Check

BACK

With larger ndls, CO 81 (89, 97, 105) sts. Next row (RS): Beg Garter st; work even for 12 rows, end WSR.

Establish Pattern

Next RSR: K4 (keep in St st throughout), pm; work in Garter Check pat across center 73 (81, 89, 97) sts; pm, K4 (keep in St st throughout). Cont as est, work even until piece meas 15½ (15, 14½, 14)* from CO, end WSR.

Shape Armhole

Next row (RS): BO 4 sts at beg of next 2 rows -73 (81, 89, 97) sts.

Establish Pattern

Next row (R5): K3 (keep in St st throughout), work in pat est across to last 3 sts, K3 (keep in St st throughout). Cont as est, work even until arm-hole meas 8 (8½, 9, 9½)* from shaping, end VSR.

Shape Shoulders and Neck

Next row (RS): BO 21 (25, 29, 33) sts for shoulder; work across center 31 and place on stitch holder for neck; BO rem sts for shoulder.

FRONT

Work as for Back till armhole meas 5 (5½, 6, 6½)* from armhole shaping, end WSR; pm each side of center 19 sts - 73 (81, 89.97) sts.

Shape Neck

Next row (RS): Cont in pat est, work across to marker; place center 19 sts on stitch holder; join a second ball of yarn and work to end - 27 (31, 35, 39) sts each side. Working both sides at same time, at each neck edge, dec 1 st EOR 6

times - 21 (25, 29, 33) sts rem each side for shoulders. Work even until piece meas same as Back to shoulders. BO rem sts.

SIFFVES

With smaller ndls, CO 37 (37, 45, 45) sts. Begin Garter st; work even for 12 rows, end WSR. Change to larger ndls.

Establish pattern

Next RSR: K2 (keep in St st throughout), pm; work Garter Check pat across center 33 (33, 41, 41) sts; pm, K2 (keep in St st throughout). Work even as est for 6 rows, end WSR.

Shape Sleeve

Next row (RS): Working 2 sts in from each edge, beg this row, inc 1 st each side every 4 rows 20 (22, 21, 23) times, working inc sts in Garter Check pat as they become est - 73 (77, 83, 87) sts. Work even until plece meas 18°

from CO. BO all sts.

FINISHING

Block pieces to measurements, being careful not to flatten texture. Sew shoulder seams. Sew in Sleeves, sewing upper edge of sleeve along underarm shaping; sew side and Sleeve seams.

Neck Band

With RS facing and circular ndl, beg at right shoulder, pick up and k 88 sts evenly around neck shaping, including sts on holders; pm for beg of rnd. Begin 1x1 rib; work even for 4 rnds. Change to St st (knit every round); work even for 7 rounds, Bo all sts loosely. Using yarn needle, weave in all ends.

STITCH ABBREVIATIONS

K1tbl Knit 1 through the back loop, twisting

Tw2 (Twist 2): Skip first st on LH ndl; K second st, but do not drop from ndl; K first st, drop both sts from LH ndl.

Edge stitches (es): SI the first st of each row kwise, P the last st.

(STRAIGHT) TWISTED RIB PATTERN (multiple of 3 sts + 1)

Row 1 (WS): K1, * P2, K1; Rep from * across. Row 2: P1, *Tw2, P1; Rep from * across. Rep Rows 1 and 2 to form the (Straight) Twisted Rib Pattern.

(CIRCULAR) TWISTED RIB PATTERN (multiple of 3 sts)

Row 1 (RS): * P1, K2; Rep from * around. Row 2: *P1, Tw2; Rep from * around. Rep Rounds 1 and 2 for (Circular) Twisted Rib Patten.

HERRINGBONE RIB (multiple of 9 sts + 1)
Row 1 (WS): K1, * P8, K1; Rep from * across.

Row 2: P1, * [K1tbl] 8 times, P1; Rep from * across.
Rep Rows 1 and 2 to form the Herringbone Rib.

CHECKERBOAD PATTERN (multiple of 18 sts + 9) see Chart

DESIGNER NOTES

 Shell is very close fitting, waist length, with mock turtleneck.

Due to the large Stitch pattern multiple, cardigan is given in 3 sizes.
Hip length cardigan is worked in one piece

to underarms; Back and Fronts are worked separately to shoulders.

 Cardigan Front Bands are worked in Twisted Rib throughout.

PROJECT 14A: SHELL

SHELL BACK

CO 75 (84, 93, 102) sts. Next row (RS): K 1

Establish Ribbing Pattern

Next row (WS): P1 (edge st, keep in St st throughout), work in Straight Twisted Rib pattern across to last st, P1 (edge st); work even for 10 rows, end with RSR.

Establish Body Pattern

Next row (WS): P1 (edge st), work Row 1 of Herringbone Rib pat across center 73 (82, 91,

100) sts, P1 (edge st). Cont as est, rep Rows 1 and 2 of Herringbone Rib pat, until piece meas 10 (11, 11, 12)* from CO, end with WSR. Shape Armhole

Next row (RS) 80 4 (5, 6, 7) sts at beg of next 2 rows, then 2 (2, 3, 4) sts at beg of next 2 rows, 2

34) sts for neck. Shape Neck

Next row (RS): Cont as est, work across to marker, place center sts on stitch holder; join a second bail of yarn and work to end - 15 (17, 19, 19) sts rem each side. Working both sides at same time, work 1 row even. Next row (RS): At each neck edge, dec 1 st every row twice - 13 (15, 17, 17) sts rem for each shoulder. RG oven sts.

SHELL FRONT

Work as for Back until armhole meas 5½ (6, 6½, 7)" from beginning of armhole shaping, end with WSR - 57 (64, 69, 72) sts rem; pm each side of center 17 (20, 21, 24) sts.

Shape Neck

Next row (RS): Cont as est, work across to marker; place center six on stitch holder; join a second ball of yarn and work to end - 20 (22, 24, 24) sts rem each side. Working both sides at same time, at each neck edge, 80 2 sts wice, then dec 1 st each side every row 3 times - 13 (15, 17, 17) sts rem for each shoulder. Work even until armhole meas same as Back to shoulder, end with WSR, 80 rem str.

SHELL FINISHING

Block lightly, if necessary, being careful not to flatten texture. Sew shoulder and side seams. Neck Band

With RS facing, using circular ndl, beg at left shoulder seam, pick up and K72 (78, 81, 87) as a round neck edge, including sts on holders; pm for beg of round. Beg Circular Twisted Rit; work even until neck band measures 2° from pick-up rnd, end Rnd 2. BO all sts boosely in oattern.

Armhole Band

Armnore Band With RS facing, using circular ndl, beg at underarm, pick up and K81 (87, 93, 99) st around armhole; pm for beg of round. Begin Circular Twisted Rib Pattern; work even until band meas 1" from pick-up rnd, end Rnd 2. BO all sts loosely in pattern. Using yarn needle, weave in ends.

PROJECT 14B: CARDIGAN

Establish Ribbing Pattern

CARDIGAN BODY

Using smaller needle, CO 192 (228, 264) sts. Next row (RS): K 1 row.

Row 1 (WS): Slip 1 (edge st), work Row 1 of Straight Twisted Rib pat across to last st, P1 (edge st). Row 2: Slip 1, work Row 2 of Straight Twisted Rib pat across to last st, P1. Next row (WS): Buttonhole Row Work in pat across to last 7 sts, end [p2tog, yo for buttonhole], K1, P2, K1, P1. Note: Rep Buttonhole Row every 14 (16, 18) rows 6 times. Next row (RS): Work even in pat for 7 rows, end with RSR. Change to larger ndl.

Establish Checkeroloan Tartern Row I (WS): Slip 1, working Row I of Stitch patterns, cont Straight Twisted Rib across 1st, pm for left Front band; "work Herringbone Rib across 8 sts, Straight Twisted Rib across 1st, pm for across 1ost st, pm for across 1ost st, pm for across 1ost st, pm for macross 1ost st, pm for might Front band, work across 10 sts, pm for right Front band, work as est to last st, Pl. Rows 3 – 10; Rep Rows 1 and 2, slipping markers as you come to them. Row 11: Work Straight Twisted Rib as est across Front band, beg P2, cont in Straight Twisted Rib across 9 sts (20 sts in Straight Twisted Rib across 9 sts (20 sts in Straight Twisted Rib across 9 sts (20 sts in Straight Twisted Rib, "work Herringbone Rib across 8

sts. Straight Twisted Rib across 10 sts; Rep from * across to marker, then cont in Straight Twisted Rib as est to end. Rows 12 - 20: Work even in pattern as est. Rep Rows 1 - 20 for Checkerboard Pattern for remainder of garment. Work even until piece meas 13 (14, 14)" from CO, end with WSR.

Dividing Row

Next row (RS): Cont in pat, work 47 (50, 56) sts, place on stitch holder for right Front; BO 8 (20, 26) sts for underarm; work 90 (108, 126) sts for Back; place rem 47 (50, 56) sts to stitch holder for left Front.

CARDIGAN BACK

Next row (WS): Working on Back sts only, BO 8 (20, 26) sts for underarm, work to end -82. (88, 100) sts rem for Back. Cont in pat, work even until armhole meas 71/2 (8, 9)" from underarm shaping, end with WSR; pm each side of center 28 (30, 32) sts for neck.

Shape Neck

Next row (RS): Work across to marker; join a second ball of yarn and BO center sts, work to end - 27 (29, 34) sts rem each side. Working both sides at same time, at each neck edge, BO 3 sts once, 2 sts once, then dec 1 st once - 21 (23, 28) sts rem for shoulder. Work even until armhole meas 8½ (9, 10)* from underarm shaping, end with WSR. BO rem sts in pattern.

CARDIGAN RIGHT FRONT

Place 47 (50, 56) sts from stitch holder on ndl, ready to work a WSR. Join yarn at underarm; cont in pat, completing rem buttonholes, work even until armhole meas 1 (11/2, 2½)" from underarm shaping, end with WSR.

Shape Neck

Next row (RS): At neck edge, BO 11 sts, work to end - 36 (39, 45) sts rem. Work 1 row even. Next row (RS): At neck edge, dec 1 EOR 8 (10, 12) times, then every 4 rows 7 (6, 5) times - 21 (23, 2B) sts rem for shoulder. Work even until piece meas same as Back to shoulder. BO rem sts in pattern.

CARDIGAN LEFT FRONT

Place 47 (50, 56) sts from holder on ndl, ready to work a RSR. Work as right Front, rev neck shaping.

CARDIGAN SLEEVES

Using smaller ndls, CO 35 (41, 47) sts, Next row (RS): K 1 row. Establish Ribbing Pattern

Next row (WS): P1 (edge st, keep in St st throughout), work in Straight Twisted Rib across to last st, P1 (edge st); work even for 10 rows, inc 1 st across last RSR - 36 (42, 48) sts.

Establish Checkerboard Pattern

Next row (WS): Change to larger ndls: P1 (edge st), K0 (0, 1) work 3 (6, 8) sts in Herringbone Rib, 10 sts in Straight Twisted Rib, 8 sts in Herringbone Rob, 10 sts in Straight Twisted Rib, 3 (6, 8) sts in Herringbone Rib, K0 (0, 1), P1 (edge st). Cont Checkerboard pat as for Back, alternating Stitch patterns every 10 rows and maintaining

edge sts. Work even for 4 rows, end with WSR. Shape Sleeve

Next row (RS): Inc 1 st on each side every 4 rows 25 (25, 27) times, working incs inside edge sts, and working inc sts into pattern as they become est - 86 (92,102) sts. Work even until piece meas 18 (191/2, 201/2)" from CO. BO all sts loosely in pattern.

CADIGAN FINISHING

Block pieces lightly, if necessary, being careful not to flatten texture. Join Fronts to Back at shoulder seams. Collar

With WS facing (RS of Collar), beg at left Front neck edge after bound off sts, pick up and K129 (132, 135) sts evenly around neck shaping.

Establish Ribbing Pattern

Next row (WS): P1 (edge st), work in Straight Twisted Rib across to last st. P1 (edge st). Work even in pattern until piece meas 41/6" from pick up row, end with Row 1 of pattern. BO all sts loosely in pattern.

Assembly

Set in Sleeves, sewing upped edge of sleeves along underarm shaping; sew sleeve seams. Using yarn needle, weave in ends. Sew buttons opposite buttonholes.

 TO SAVE TIME TAKE TIME TO CHECK GAUGE.

DESIGNER NOTES

 Each center purled rib st is taken off the needle and dropped all the way down to the CO edge to form the basis for weaving the CC yam.
 Make sure to drop sts before binding them off at neck or shoulders. Include dropped sts when counting decreases or binding off.

RACE

With MC, CO 68 (74, 81, 89) sts. Knit 1 row. Establish pattern

Row 1 (RS): P5 (8, 6, 10), K1, P1, K1, *P8, K1, P1, K1; Rep from * 4 (4, 5, 5) times more, P5 (8, 6, 10). Row 2: K5 (8, 6, 10), P1, K1, P1, *K8, P1, K1, P1, Fep from * 4 (4, 5, 5) times more, K5 (8, 6, 10). Rep these 2 rows until Back meas 10 (11, 12, 13)* from CO, ending with WSR.

Begin Sleeves

CO 12 (12, 16, 16) sts at beg of next 2 rows.

Inc 1 st each end every 8 (8, 10, 10) rows 5 times working added sts in Rev St st - 102 (108, 123, 131) sts. Work even until sleeve meas 7 (7½, 8, 8½)" above first CO sleeve sts, ending with WSR.

Shape back neck and shoulders

Mark center 20 (22, 25, 27) sts. Work to first marker, join second ball of yarn and BO center marked sts dropping each center puri rib st off needle, work to end of row. Working on both sides of neck with separate balls of yarn, dec 1 st at each neck edge every row 3 times, while or the same time, BO at each arm edges 10 (10, 11, 12) sts. 3 (4, 2, 3) times, then 8 (0, 12, 13) sts. 10, 2, 1) times.

FRONT

Work as for Back until Front meas 3 (3½, 4, 4½)" above first CO sleeve sts, ending with WSR. Shape neck

Snape neck Mark center 12 (14, 17, 19) sts. Work to first marker, join second ball of yarn and bind off center marked sts dropping each center purit ist off needle, work to end of row. Working on both sides of neck with separate balls of yarn, 8O at each neck edge 2 sts twice. Dec 1 st each side of neck very RS row 3 times – 38 (40, 46, 49) sts lett on each side after neck.

decs and sleeve incs are complete.

Work even until sleeve meas 7 (7½, 8, 8½)"
above first CO sleeve sts, ending with WSB.
BO at each arm edge 10 (10, 11, 12) sts 3 (4, 2, 3) times, then 8 (0, 12, 13) sts 1 (0, 2, 1)

times.

Unravel each dropped purl st all the way down to CO edge to make a wide 'ladder'. Cut long strands of CC, each measuring 7 times the length of ladder. Using ladder spaces as a base, with tapestry needle and yarn doubled, were over and under 3 strands at a time. Make a total of 3 woven rows in each section, alternating strands over/under for each row.

Assembly Sew shoulder, sleeve and side seams.

Edgings

With crochet hook and MC, work 1 row sc around lower edge, neckline, and sleeve openings. With a brush or hair pick, lightly 'comb' CC to bring eyelash strands to the front.

Designed exclusively for Knit 'N Style by Diane Zangl .

18 Square Times Square Jacket Continued from page 51

DESIGNER NOTES

- Each yarn is used for 2 or 4 rows, adding new color and texture as desired.
- Refer to block chart for knitting sequence.

BASIC BLOCK PATTERN

CO 49 (57, 65) sts. Row 1 (WS): K48 (56, 65), P1 (edge st). Row 2 (RS): SI 1 kwise (edge st), K22 (26, 30), sI 1 kwise, K2tog,

psso, K22 (26, 30), P1 (edge st) – 47 (55, 63) st rem. Row 3 (W5): s1 l kwise, Kt olast st, P1. Row 4 (RS): s1 l kwise (edge st), K21 (25, 29), s1 l kwise, K2log, psso, K21 (25, 29), P1 – 45 (33, 61) st serm. Rep Rows 3-4, dec 2 st every K8t until 5 sts rem, ending with RSR. Next row: S1, s1, K2log, pss second s1 st over, P1. Next row: S1, P2log, psso. Keep the last st "live" and break yarn.

BODY

Work Block 1 as foll: CO 49 (57, 65) sts. Work Basic Block pattern, keeping the last st "live". Turn square so top center points diagonally to the right (see block chart dotted lines for Block 1).

Work Block 2 as foll: With "live" st on ndl and RS facing, pick up and K 24 (28, 32) sts along right side of Block 1. Turn to WS and CO 24 (28, 32) sts – 49 (57, 65) sts on ndl. Work Basic Block pattern. Leave last st "live".

To beg Row 2, with RS facing, CO 24 (28, 32) sts and pick up and K 25 (29, 33) sts from the top edge of Block 1. Work Basic Block pattern.

Work Block 4 as for Block 2. Work Row 3 as for Row 2. Continue until all rows have been worked for Right Back, Sleeve and Front.

Work Block 15 as fok nightin 医ryling of Block 1, pick up and K 经投资处 数 sts along left

Jacket is sized to fit Women's Small (Medium, Large).

FINISHING Assembly

With Front and Back RS tog, sew underarm and side seam, making sure to align seams between blocks on Front and blocks on Back.

Hem Edge

Beg hem edge of Left Front and RS facing, pick up and K200 (208, 216) sts along Left Front, Back, and Right Front lower edge. Work in Garter St until band meas 1" from picked up sts. BO all sts in pattern. Weave in all ends.

Front Band

Beg hem edge of Right Front and RS facing, pick up and K160 (168, 176) sts up Right Front edge, around neck, and down Left Front edge. Work in Garter St until band meas 1" from picked up sts. BO all sts in nattern.

Sleeve Edge

With RS facing, 16" circular ndl, pick up and K46 (54, 62) sts at sleeve edge. Join in round, careful not to twist the sts. Pm to indicate beg of rnd. Work in Garter St until band meas 1" from picked up sts. BO all sts in pattern. Weave in all varns ends.

Designed by Myra Savage for Great Balls of Yarn.

Right Side Loop

Transfer sts on stitch holder to LH ndl, pick up 1 st from the purse flap and K2tog, K4, K2tog, K5 - 11 sts. Rep Rows 2-10 as for Left Side Loop. Securely sew the end of each side loop to inside of purse.

Optional Inside pockets for Purse (make 2) With Deluxe Chunky Wool and larger circular ndls, CO 24 sts. Work in Garter st until piece meas 8°. BO all sts.

Felt Purse and Pockets (see instructions below).

FFITING INSTRUCTIONS

Weave in all ends. Wool yam felts differently so finished size and texture of bag may vary. Designer suggests tying socks or knee highs through the side loops to keep them from felting tog. Place your bag in a zippered mesh bag or a zippered pillow protector. This will minimize lint in your washing machine. Adding a pair of jeans or tennis balls to increase agitation and decrease felting time. Use the lowest water level with HOT water and a tsp. or so of laundry detergent. DO NOT LET THE WASHER SPIN AS THIS COULD CAUSE PER-MANENT CREASES. Check regularly on progress for the size and shape change every 3 to 5 minutes. If additional felting is needed, reset washer and agitate a few more minutes. If left too long, the bag could be misshapen or terribly small. Once the desired size is achieved, rinse the bag in cold water, wrap in a towel to remove excess water. The bag is now ready to pull into shape. Plastic grocery bags can be used to stuff the bag so that the desired shape is maintained while air-drying. Felting melds the yarn fibers together and once dry, produces a firm fabric.

FINISHING

Handle (do not feli ayma:))

With samller dpn, Peline Churky Wool and Rebecca tog, work a 32 length of I-Cord using the 4 St I-Cord method. BO sts. Rnd

1: With crochet hook and Aster 114, "sc into each K st along the length of the I-cord, turn, and rep on opposite side. Rnd 2: Change to Aster 131, sc into each sc. Fasten off.

Assembly
Attach end of the handle through side loop.
Rep for other side. Sew pockets inside bag
(one to back, one to front inside). Embellish
outside of bag as desired with ribbons, beads,
crocheted flowers.

PROIECT 20B: CELL PHONE POUCH

With larger dpn and Deluxe Chunky Wool, CO

20 sts. Work in Carter st for 8 rows. Bottom of cell phone pouch completed. Next rows Bog picking up six from the Pouch Bottom to work body of pouch. With old work body of pouch. With old 18 rows pouch of 48 sts (at a rate of 1 st every 2 rows), Notl #2; pick up and K4 sts (at a rate of 1 st every 2 rows), Notl #2; pick up and K4 sts; Notl #4: K2O sts - 48 sts divided over 4 ndls. Row 4 (WS): P.

Rep Rows 1-4 to form the Stockinette Ridge St.

DESIGNER NOTES

A circular needle is suggested to accommodate the large number of sts.

With circular ndl, CO 134 sts. Beg at the bottom of the tote and working back and forth on the ndl, Rows 1-10: Garter st. Row 11: Beg Sts with P row. Work even in Sts until piece meas 4½" from CO. Change to Stockinette Ridge St, working Rows 1-4 a total of 15 times, end working Rows 4 – piece should meas approx 15" X 30". BO all sts. Tote Handle

CO 4 sts. Work in Garter St until piece meas 114". BO all sts.

Tote Handle Edging With crochet hook, sc around all edges of the tote handle. Fasten off.

CONSTRUCTION

With WS tog and yarn needle, seam the cast on and cast off edges tog. Lay the tote flat and roll the tube so the seam is 3½" (see illustration 1) from the left outer edge of the bag.

Illustration 1

Pin the bag together so the seam position does not change. Sew the bottom of the bag together, joining flat so there are no heavy seams.

Top Edging

With crochet hook, work a round of sc around top edge of the bag, starting at seam. Join and fasten off. The seam will be hidden under one of the straps along with the seam.

Mark Strap Mid-Point

Fold handle in half to find the mid-point (approx 57" from either end). Place a pin to indicate mid-point. Half of the strap is used on each side of the tote.

Attach Handle
Pin the beg end of the strap 3" from the left
outer edge, starting at the bottom seam (see
illustration 2). This section of strap will be
centered over the vertical seam (see illustration 2). Cont pinning the strap 3" from the
side edge until the strap reaches the top edge
of the front of the tote. Make sure that the
strap does not twist. Place the mid-point of

...

the strap (marked with pin), 3" from the right outer edge and at the bottom seam. Cont pinning strap from bottom to top edge. Backstitch with varn needle each side of both straps on the front. Be sure to secure the strap at the upper edge of the bag. Turn the bag over. Place and pin the strap up the back of the bag, 3" in from the outer edge, working from the bottom to the top edge. On the last section of the strap, beg placement and pinning at the bottom edge, meeting the beg of the strap from the front. Backstitch up and

down each side of the strap on the back.

Turn the bag WS out. Flatten the bottom of the bag such that the bottom seam and Garter st fabric is flat. Sew a seam parallel to side seam of tote, creating a triangle at approx 11/2" in from the point down the seam line (see illustration 3). Rep seam on other side. Fold the points towards the center and tack to the bottom seam.

Turn back to the right side. To hold the shape

of the base, cut a piece of stiff plastic to the size of the base and insert at the bottom of the tote.

Knit for Charity Websites

The organizations listed below are a few of the many charities that accept knitted items. Many national organizations have local chapters. Check the websites for free patterns and specific information.

Afghans for Afghans

www.afghansforAfghans.org

This program sends hand-knit and crocheted blankets and garments to the people of Afghanistan.

Caps for Kids

www.capsforkids.org

Volunteers knit and crochet caps and children's accessories to be given to non-profit, non-denominational agencies in local communities.

Chemo Caps

www.chemocaps.com

Participants make soft, stylish hats for chemotherapy patients who have lost their hair. Hats may be distributed to local hospital oncology units or sent away to be distributed in other communities.

Children in Common

www.childrenincommon.org

Accepts wool hats, mittens, scarves, socks and sweaters to be sent to orphanages in Eastern Europe. These institutions are very cold and clothes and money are scarce. Delivery of items is made by parents traveling to the area to adopt a child.

Cubs for Kids www.cubsforkids.com

Volunteers knit sweaters, hats and scarves for teddy bears to be given to children at homeless shelters throughout the country.

Newborns in Need

www.newbornsinneed.org This organization serves the needs of premature babies, who need

hats and blankets to retain their body heat. Volunteers sew, knit and crochet clothing and baby blankets.

Project Linus

www.projectlinus.org

"Blanketeers" sew, quilt, knit or crochet blankets to be given to seriously ill or traumatized children.

Seamen's Church Institute: Christmas At Sea

www.seamenschurch.org

Since World War I, the Seamen's Church Institute has provided scarves, watch caps and sweaters for far-flung mariners on Christmas Day. The organization collects donates items throughout the year.

Shawl Ministry

www.shawlministry.com

Knitters create a shawl to be given to comfort the recipient, or as a gift during a special time of life. Prayers are offered during the knitting of the shawl and before it is given away.

Warm Up America!

www.warmupamerica.com

Participants make afghans or 7" x 9" rectangles to be joined with others into afghans which are distributed to social service agencies within the community.
